

KINGDOM UPGRADE

The biggest and most radical change a human being can experience is when we step out of religion and into the Kingdom of God. Once we find our true home in the Kingdom, we will experience a personal reinvention, clarification of our calling and the transformation of our level of impact.

Helping you and those with you to enter and participate in the new Kingdom season. This will establish you firmly in a position of legality and blessing in God's Kingdom, which will lead to greater fruitfulness, multiplication and the fulfilment of God's purposes through you.

Kingdom Upgrade is a cutting edge, high-impact **2-day encounter** designed for inspiration, spiritual recalibration and the activation of the final mission of the people of God. It is for all those men and women of God who want to serve with greater effectiveness, fruit and impact in the areas of ministry into which they are called.

God promised **to shake all that can be shaken, so that what cannot be shaken will remain** (Heb 12:27). When God moves, he usually begins in his own house. This is why he is permanently turning his people upside down, so they can **turn the world upside down** (Acts 17:6). In the last decades many new and revolutionary insights were beginning to transform God's people: rediscovering the apostolic and prophetic dimensions; the synergy of the fivefold ministry; moving from fairly static, organized church-houses to more organic and viral house churches; discovering the principle of constitutional legality and the crucial importance of Kingdom economics. **The keystone component** in all of this, however, is the discovery of the relevance of the Kingdom of God. *Jesus preached the Kingdom; what came was Christianity.* Moving away from all man-made religion and repatriating into the domain of God's uncontested rule, the house of our Father, is currently causing a global, spiritual migration. Many are literally homesick for a land they have never been before. They sense the urgency and overpowering desire to leave everything behind (including many churches!) and respond to the call of their heavenly fatherland – The Kingdom of God!

In the world of computers, each major advance in programming requires a software upgrade. It is in this sense that **Kingdom Upgrade** offers a platform for all those that inquire about this new and singular spiritual season or wish to be up to date with the current developments in God's Kingdom. Kingdom Upgrade exists to inspire and empower you to be prepared for probably the most fascinating period of human history that lies directly in front of us.

Wolfgang Simson (Germany) is a missiologist and, as one of the founders of former DAWN Europa, a veteran catalyst for church planting movements. His is one of the voices of the global house church movement and a proponent of Kingdom Economics. He is not only known for his book *Houses that Change the World*, but 15 other books like *The Kingdom Manifesto* or *REFORNATION*, some of which you can find at www.refornation.eu
